# **ALTA-GAS LTD: ACQUISITION OF DECKER ENERGY INTERNATIONAL**

# *Introduction*

The recent purchase of Decker Energy International by AltaGas Ltd is a major development in the company's evolution towards diversifying its electricity generation portfolio from fossil fuels to renewable sources. This case also looks at the strategic, financial and operational drivers behind the acquisition

# *Strategic Alignment*

**AltaGas wanted to expand its energy mix by using Decker Energy's knowledge of renewable resources. It complemented AltaGas's strategic business plan of focus on renewable energy business for sustainable growth. The acquisition of Decker Energy's assets would enable AltaGas to improve its strategic position in the energy business**

# *Operational Challenges*

**After the acquisition, new issues arose in operations that include; Corporate culture integration, business processes, and resource management. These issues were solved by the planning and implementation of a strategy together with the cooperation of the working groups.**

## *Conclusion*

**The proposed merger between Decker Energy International and AltaGas Ltd is a fine M&A experience which is an excellent example to implement strategic development. The case amply shows how it is possible for organisations to capture value by actively seeking opportunities whiles at the same time, managing challenges effectively in new/ emerging fields.**
