Apax Partners And Xerium S.A.

Introduction

**The case Apax Partners and Xerium S.A.:
Private equity investment and operational
restructuring focuses on the context and
roles of private equity investment and
restructuring among manufacturing
industries. Apax Partners, a global private
equity firm, bought paper machine clothing
and roll covers maker, Xerium S.A.**

Financial Instability

Xerium had high levels of leverage that put the company in deep trouble financially, which inhibited the company from undertaking innovation and growth.

Outcomes and Insights

The operations became more efficient, the company's financial performance enhanced, and overall competitive position in the market increased. However, the same case also has some lessons about private equity, particularly the trade off between short term gains and long-term sustainable returns.

Conclusion

From the Apax Partners and Xerium S.A. situation, students will learn about managing the distressed assets, with the help of private equity knowledge and industry obstacles and opportunities. It stresses the appropriateness of the turnaround strategy with good strategies worked out so as to suit the competitive markets successfully.
