HEDGING AT PORSCHE

Introduction

First of all, Porsche is a company that produces luxury sports car and thus has immense dependency on foreign exchange rates that exposes it to great extend of financial risk. The case titled 'Hedging at Porsche' brings into light the company's strategies of handling these risks with the techniques of financial hedging while stressing in how they strive to cover up the losses in the global environm

The background of the slide is a detailed historical painting of a coastal city, likely Constantinople, during the Ottoman era. The scene shows a large harbor filled with various sailing vessels, including galleys and multi-masted ships. In the foreground, several large galleys are docked at a pier. The middle ground features a town built on a hillside overlooking the water, with numerous buildings and a prominent mosque with a tall minaret. The background shows a range of mountains under a sky with soft, golden light, suggesting a sunset or sunrise. The overall style is characteristic of 19th-century historical painting.

Hedging Strategy

Thus, Porsche Used an active hedging strategy in order to mitigate the fluctuation of the currency. The strategy involves employing forwards and options which is a financial instruments that was used to gain a specific rate of exchange. This leads to predicated cash flows and improve organizational financial stability.
