INVESTING SUSTAINABLY AT ONTARIO'S TEACHERS INVESTMENT PLAN

The background of the slide is a detailed historical painting of a coastal city, likely Constantinople, during the late Ottoman period. The scene shows a wide harbor filled with various sailing vessels, including galleons and smaller boats. In the foreground, several large wooden sailing ships with multiple masts and sails are visible. The middle ground features a large, walled city built on a hillside, with numerous domed buildings and minarets. The background shows a range of mountains under a sky with soft, golden light, suggesting a sunset or sunrise. The overall style is characteristic of 19th-century historical painting.

Introduction

OTPP is one of the world's largest and most active sustainable investors with almost \$200+ billion in assets. This case explores OTPP's strategies for establishing positive correlations between organic and sustainable financial performance and environmental, social, and governance responsibility frameworks.

Diversified Portfolio

OTPP has an investment focus on renewable energy, and sustainable infrastructure, as well as in organizations with good ESG initiatives.

Long-Term

Targeting value accretion initiatives which offer royalty on the original investment and at the same time taking due care for environment.

Conclusion

Sustainability investment is no longer an added advantage — it's mandatory for investors who need to ensure a significant return on investment for the benefit of their communities and the world at large. OTTP's disclosure of its current and future ESG endeavours shows how institutional investors, such as OTTP, can drive the creation of a sustainable future attuned to value creation quality performance.
