# LICENSE TO OVERKILL

# INTRODUCTION

**The License to Overkill is a more detailed look into the issues pertaining organizational decision making in risky contexts. It makes a significant focus on the struggle the business leader is to confront the ethical perspectives, corporate goals, and leadership duties. Below is a structured approach to the case solution:**

---

---

# LEADERSHIP POSITIONS

**The technique used at the start of the analysis involves the determination of stakeholders and the effect of decisions on the each stakeholder. I like its application because it forms the basis of developing a problem-solving strategy.**

---

---

# STAKEHOLDERS' PERCEPTIVE

**From the case, it is essential to look at the subject matter from the employees' perspective, bearing in mind that there are customers, regulators, and shareholders involved. This multi-dimensional arrangement guarantees that any made solutions subscribe to ethical and feasible treatment.**

---

---

# CONCLUSION

**In the License to Overkill case study, the key concern that was covered in the aspects of leadership was ethical leadership as well as the dimension of balanced decision-making. This way it becomes possible to avoid overextension and effectively realize further growth in organizations, making use of the prescribed strategies.**
