QUALITATIVE LAB REPORT

INTRODUCTION

The Qualitative Lab Report' case discusses the techniques, conclusions, and issues connected with the qualitative research in the lab setting. This kind of report is suitable for reporting analysis of qualitative information, findings from interviews, focus groups or any other general opinion questionnaires.

METHODOLOGICAL PAPER

Among the main difficulties of qualitative research, one of the most important tasks is the issue of data credibility. In contrast with quantitative data, which can be statistically analyzed, approach to qualitative data is a case of coding and analyzing data.

APPROACH

According to the case solution, it is possible to identify the specific approach towards the qualitative data management. It calls for specifying objectives where there is none, choosing a suitable technique for a job, and employing sound analysis techniques.

CONCLUSION

According to the case solution, it is possible to identify the specific approach towards the qualitative data management. It calls for specifying objectives where there is none, choosing a suitable technique for a job, and employing sound analysis techniques.
