Phase 2

Introduction

The Phase 2 Case Solution is offered on the casesolutions.com website and includes a detailed discussion of the issues and the approach that may be used during the second phase of an organisation's life cycle to implement an actual business transformation plan. Thus, this case solution covers major strategic management areas as well as leadership and operation issues in order to guarantee the company's success and sustainability on the market.

Challenge

Actually, the second phase may be a crucial stage for a company as they are at the moment experiencing their intensive growth. The next phase comes after the first phase of high growth or product-market growth where companies are forced to reduce their rates of growth so that they can focus on growth that is sustainable, efficiency and profitability.

Strategic Focus for Growth

A critical concept in the Phase 2 Case Solution is the establishment of a robust, practical strategic framework that will help the organisation to advance to the next level of growth. It stresses the need to rethink the company's fundamental competency and its market posture. The solution provides detailed in relation to approaching the goals of generating new streams of revenues without prejudicing a firm on the operational expenses that are likely to accrue.

Conclusion

The Phase 2 Case Solution found on thecasesolutions.com established credible knowledge for organisations that are endeavouring throughout the second phase of their life-cycle. The case therefore stresses on tactical and planned strategies a balance between growth and operational capabilities and effective leadership to enable the sustainable strategic success.
