

*How Germany
Responded to the
Refugee Crisis
Europe Faces*

Introduction

Measures taken by Germany in reacting to the refugee crisis has become a popular subject in European political debates. This case solution aims at analyzing German's approaches, policies, and major issues that the country encountered when millions of refugees sought asylum in Germany during the crisis.

Germany's Policy Response

It was in the year 2015 that the number of refugees had risen to extents at which Germany's Chancellor Angela Merkel offered a welcome to any refugee. This decision was well welcome and welcomed all over the world and it was criticized as well. With the famous phrase "Wir schaffen das" meaning "We can do this" the country signaled its willingness to accept refugees.

Challenges Faced

This decision to open its doors for refugees in such a big number was, however, not without its pull. The most researched areas of social life were social integration and reintegration, security, and economic pressure. Civil authorities in many countries failed to properly house, feed, and educate refugees.

Conclusion

The battle Germany had to face in addressing the refugee crisis proved that major humanitarian response actions can be effective and/create a lot of problems simultaneously. The case solution from the casesolutions that is currently ready to download. com presents information about policies in Germany and raises a question concerning the choices that were made in order to maintain the balance between the country's obligations towards the world and its internal conditions in the time of crisis.
