

# The Boston Public Schools' Student Assignment Process

# Introduction

The Boston Public Schools' (BPS) student assignment has been an area that has elicited a lot of controversy because of the various influences it has on families and a huge challenge in making sure the students attain quality education in the district.

# Challenges

The current student assignment arrangement at the Boston is complex and therefore has been subject of discontentment among parents and students. A major issue is the fairness in the distribution of quality schools to the student in different neighborhood of the city, as well as balancing the geographical and economic division of the city.

# Proposed Solutions

That is why to overcome the current issues regarding the assignment process several solutions were discussed in the case. Some of them include the development of home based assignment scenes that will decrease on transportation cost, increase parental control over school choice and will be closer to the schools.

# Conclusion

The aspect of student assignment in the Boston Public Schools has been a contentious issue, and thus warrants a complex solution. In this way, through the analysis of effectiveness of different models, BPS can respond to the need of students, families and financial challenges in their district.
